Container size planning sheet

Record the source and assumptions behind your pot-size decision.

Crop / variety

Plant count

Current or proposed containe	Usable media volume	Usable depth	Source / published figure

Decision / reason to size up

Unknowns to verify

This sheet does not calculate a universal minimum. Keep the source context with the number.

Source comparison and final decision

Source 1	Source 2	Context / assumptions

■ Variety / growth habit

■ Plant count / spacing

■ Usable volume and depth checked

■ Water / heat / support considerations

Final decision and why

This sheet does not calculate a universal minimum. Keep the source context with the number.
